

## Schedule(s):

Sanitise clean child bathroom:  
**5 days per week**

## Equipment/Consumables:

- Disposable Gloves
- Spray bottle
- Red CHUX cloths
- Blue CHUX cloths
- Scrub brush

## Area:

Child Bathroom(s)

## Machinery:

i-Mop

## Chemicals:

- Diversey Taskforce
- Diversey Glance
- Diversey Crème Cleanser

## SWMS:

**807** – Cleaning, Wiping, Dusting  
Above Shoulder Height

**808** – Cleaning, Wiping, Dusting  
Below Shoulder Height

**809** – Cleaning Windows, Glass &  
Mirrors

**810** – Cleaning Toilets and Basins

## Cleaning Steps:

1. Make sure you have read, understood, and signed off the correct Safe Work Practices.
2. Ensure you are wearing disposable gloves.
3. If there's no prefilled Glance spray bottle, utilise the J-Fill Quattro Select unit to dispense Glance at the pre-configured dilution ratios into correctly labelled separate spray bottles.
4. Apply crème cleanser to toilet bowls and sinks, allowing to settle whilst completing step 5.
5. Apply Taskforce solution to the inside and outside of the toilets, including the bowl, seat, and exterior surfaces. Wipe down the exterior surfaces with a red CHUX cloth.
6. Use a toilet brush to scrub the toilet bowl, flushing the toilet once cleaned.
7. Spray Taskforce solution onto all fixtures including sinks, taps, partitions, and benches. Wipe them down thoroughly with blue CHUX cloth for a streak-free finish.
8. Spray Glance solution onto mirrors and any stainless-steel materials. Wipe them down with blue CHUX cloths.
9. Wipe over all window frames with a blue CHUX cloth, to remove any dust/dirt build up.
10. If there is any water-based paint on surfaces, spray Taskforce solution directly onto the paint and let it sit for a few minutes. Use a Blue CHUX cloth to gently remove the paint, rinsing the area with water afterward.
11. Inspect all surfaces for any missed spots or remaining stains. If required clean as needed with the appropriate cleaning solution and cloth.
12. Dispose of CHUX cloths and securely place the spray bottles in their designated areas. Ensure no chemical bottles are left in the activity rooms.

## What Good Looks Like:

The Centres should be clean at the end of each evening:

- Ensuring toilet areas are clean.
- Sinks, mirrors, cubicles, and walls are clean.
- Floor area is vacuumed and i-mopped.
- Window frames are clean.

## Why it's important:

- The cleanliness of the Centres are our customer's first and last impressions of our presentation, so we need to make this a positive one.
- With children moving around the centre, proper cleaning techniques can greatly reduce the risk of cross contamination and the spreading of germs and bacteria.
- Maintaining strict cleaning practices is critical to ensuring the health and safety of both Goodstart's Team Members and the children.
